MORTGAGE INVESTMENT
CORPORATION

WHAT IS A MIC?

A Mortgage Investment Corporation (MIC) simplifies mortgage investing by allowing individuals to pool their money, much like a mutual fund, to invest in a diversified portfolio of Canadian residential and commercial mortgages. A MIC administers these funds day-to-day, paying out 100% of its annual net income in cash dividends or new shares.

What are the Advantages of a MIC?

- The private mortgage market offers a steady source of income
- No need for personal day-to-day management of funds
- Underwriting processes and large volume of deal flow leads to a well-balanced portfolio
- Quick reinvestment of loan payments and payouts such that capital does not sit idle

Why 460 MIC?

- Investment is backed by actual Canadian real estate
- Higher yields than traditional bonds & GICs
- Reliable annual income with provision for early redemption
- Our dedicated team has more than a century of combined real estate and investment experience

Tax-Efficient Investing

Investments in 460 MIC are eligible for registered funds (RRSP, RESP, RRIF & LIRA) as well as TFSAs. To invest, please contact a registered exempt market dealing representative to determine whether this investment is suitable for you. 460 MIC has retained Belco Private Capital Inc. ("Belco") to act as its exempt market dealer. For further information on how to invest, please contact psharma@belcopc.com.
